Duchess class 46240 'City of Coventry' working late 1960s. Acrylic on board 24x24"

TERENCE DUTTON was born in 1934 and lives in Walsall in the West Midlands. He was employed by Fleet Street Design and Consultancy and other

illustration agencies from his mid teens, before setting up his own company in the Midlands. In his maturing years he painted several authentic railway paintings, entirely for his own interest and these have been a revelation of his fine painterly quality and subject integrity. He is now prepared to release these for sale to discerning enthusiasts.
Leading railway artist John Austin, a Fellow of the Guild of Railway artists, who saw them when visiting, commented that they were well up to GRA standards.

Prices increased to £1800 for 24 x 36" works and £1200 for 24 x 24" works.
